Last Sunday was surely a bird of a winter day, there being very little of the winter order about it. The mercury registered above 60 degrees, causing one to think spring had arrived. And the several days that followed were nearly as mild. There would seem to be little need for northerners to go south in winter, seeking a more salubrious climate.

Last week Thursday evening a jolly crowd of 42 from Youngstown came on a hay load to Canfield. The party was given in honor of Miss M. E. Stinson, who is attending the Normal College, at the home of her uncle and aunt, Mr. and Mrs. Wallace Corli, who reside west of town. A dainty luncheon was served at midnight. Games and music were the features of entertainment. The vocal music was rendered by four young men and violin music by Mr. Osborn.

J. A. White, ex-mayor of Barnesville, addressed large audiences in Canfield on the temperance question last Sunday. Mr. White declared there was no doubt about local option being the right thing and enforcement of the law by those in authority meant the closing of dram shops. He told of the fight made against speakeasies and blind tigers in his city and how in the end they were put out of business. Men who fought hardest to continue the open saloon in Barnesville are now among the most enthusiastic temperance workers, seeing the many benefits that have come since the saloon went out. As to the tax side of the question he declared the levy in his city is much lower now than when fifteen saloons were paying the liquor tax. He said that many policemen were needed and now two find little to do. Mr. White's every argument was strongly against the saloon and he gave figures that can be easily verified to back every assertion.

ECHOES FROM INFIRMARY FIRE

Two deaths have resulted from the county infirmary fire of last Thursday. John Davies, 65 years old and an inmate of the institution since Oct. 19, 1907, died Saturday evening. His remains were taken Sunday to Palmyra, where he has two nephews, for burial. Davies returned to the building to secure \$3 he had left in his haste to escape and sustained fatal burns by inhaling the flames. Harry Hird, single and 60 years old, who went to the infirmary from Youngstown Nov. 14, 1908, died Wednesday night from the effects of his burns. He has no known relatives and his remains will be buried in the infirmary cemetery. Of the other men burned all will recover with the possible exception of Philip Eckhart and Arthur Evans. Their condition shows no improvement and it is feared they cannot recover.

Nothing more definite is known as to the origin of the blaze than what was given in the Dispatch report last week. The male inmates are now quartered in the women's building, the women, about 35 in number, being given three large rooms. Of course the building is somewhat crowded, but not to the extent of making it uncomfortable for the unfortunate.

Insurance adjusters were at the infirmary Thursday to fix the loss. No work has been done on the ruins. It is

Scene in the new tuberculosis hospital where the men burned in the fire were temporarily placed after receiving medical attention.

possible that John Minck, aged 60, of Petersburg may have been cremated. He is missing, and as he was at the infirmary for dinner the day of the fire, it is believed that he was there. If he perished his bones will be found when the debris is removed from the cellar.

All tuberculosis patients have been placed in the new hospital.

The complaint of the county commissioners and infirmary directors in securing new beds, bedding and other necessities saved the inmates much inconvenience and they had everything possible done to alleviate the suffering of the men who received burns.

A fire engine, other equipment and firemen were brought from Youngstown on a special train Thursday evening and water was poured into the burned structure until 3 o'clock Friday morning when only smoking embers remained.

The brick walls of the burned building have been inspected by an expert and found to be in such good condition that they can be used for reconstruction. This will save the county many thousands of dollars. Plans are being considered by the county commissioners for immediately rebuilding the structure which will be fireproof. No figures are given out as to the probable cost but perhaps \$50,000 will not be far out of the way.

The insurance on the burned building was \$25,000 and on contents \$2,000. Fire escapes will be placed on the women's building so that the men quartered temporarily on the second and third floors may have easy means of getting out in a hurry should occasion require.
